## WHY YOU MATTER

Allies actively combat discrimination, microaggressions, and exclusionary behaviors. Use your privilege and influence to advocate for fair and inclusive policies, and practices. This proactive approach helps to dismantle systemic barriers

Being an ally is not just about intentions but about taking tangible actions. Allies commit to ongoing self-education and actively seek opportunities to engage with marginalized communities.

You are often the first connection the queer community makes with people who may not fully understand us.

## HOW TO HELP

Quotes From Indiana's Queer Community

- Just ask us!
- Being an ally doesn't mean that you constantly need to speak up for us. We just want support.
- Keep an open mind and don't try to come into this space with preconceived notions.
- Identity and Sexual orientation is fluid and can change.
- Know our history! Its important to us.
- Everyone should be aware of identities so, in turn, people can learn to be respectful, and possibly learn something about themselves.
- Your vote can help support and protect us.
